The regulations contain few radical changes from existing methods, the most important being in the manner of keeping accounts in post-offices and in rendering returns thereon. Heretofore the postmaster was required to keep a record of receipts, a quarterly account current, and a general postal account. One class of at 6 o'clock dropped anchor off Tompkinsville, S. I. Capt. The prosecuting witness testifled that he was on his way home, passing Gallathrown out, and a crowd came out and assaulted him, and in the melee he was cut in the groin and hand. John Galiagher testified that Barry threw a glass at Anderson, and it glanced off the shovel. On cross-examination witness said that Anderson subsequently said that he went to sleep on a pile of wood and fell off and hurt his groin, and that the glass cut him in the hand. Patrick Ryan testilled that he heard the glass brake on the shovel, tified that he heard the glass brake on the shovel, and saw Barry pick up a stone, and Anderson held the shovel to ward off the blow; then Barry threw the stone, and it struck the shovel, when the old man left. Dr. Richard A. Neale testified that Anderson's wounds appeared to be made, that on the hand by glass, and that in the groin was a punctured wound. At this point the Government abandoned the more serious charge and substituted a charge of assault. The defendant testified that he was sitting at Gallagher's when Anderson made use of an opproblous gher's when Anderson made use of an opproblous epithet, and he threw the glass striking the shovel, and he threw a stone, which did not strike Ander-son. The court said this case had dwindled down to small proportions, but the assault was not justified. He imposed a fine of \$20 or 60 days.

Volunteer's Victory Yesterday. THE BEATS THE PURITAN TEN MINUTES-HOW IT WAS The peerless Volunteer yesterday added another rophy to her collection by winning with her accustomed grace and ease the race from Vineyard Haven to Brenton's Reef lightship, a distance of 38 nautical miles, as stated in dispatches to THE STAR last evening. A Newport telegram says: "It was the prettiest contest of the cruise and afforded a fine opportunity for the contestants to show their qualifications. The first several miles of the race was sailed with the wind abeam, the next 18 was a dead to windward battle, and the last part was a long reach close hauled. The Volunteer beat the Puritan 10 minutes and 14 seconds actual time, and 7 minutes 14 seconds corrected time. The Puritan defeated the heroine of last season, the luckless Mayflower, by 11 minutes and 6 seconds actual time, and 13 minutes and 50 seconds corrected time. Even the schooner Sachem got to windward of the Mayflower by 2 minutes and 28 seconds. Capt. Craven found this evening an entirely satisfactory explanation of the Mayflower's sluggish behavior in the race. Suspecting that there was something wrong with the centerboard, he had it unshipped. Only a cursory examination was necessary to show that one-third of the big board was shivered, and hung to the main part simply by a single bolt. Of course, this acted as a drag upon her, and it was quite natural that she failed to go o windward of the Puritan, or even the Sachem. Capt. Craven recalled that the board struck on Hedge Fence Shoal, three miles east of Cross Rip, during the race for the Morgan cups from Vineyard Haven to Marblehead. The broken board also accounts for the way the Mayflower got left at Marblehead by all of the big sloops, including the Priscilla. Ten men are working on the center-board to-night alongside the Fall River pier. They will have it ready to ship before morning, and the Mayflower will have another shy at the
